 Model(s) US/CRAFTMASTER WATER HEATER COMPANY  
 FG1F4040S3NOV  
 Water Heater  
  
**IRONCLAD GROUP**

- This water heater must be connected (vented) to the outdoors by means of a chimney or gas vent and meet the requirements of the local codes.
- This water heater is suitable for water (potable) heating and space heating. Do not connect to any heating system or component(s) previously used with nonpotable water heating appliance.
- Toxic chemicals, such as used for boiler treatment, must not be introduced into the potable water heater used for space heating.
- See instruction manual for gas valve replacement instructions.

**IMPORTANT**

When the burner is "ON," moisture caused by the combustion process may condense and drip on the burner. This condition is normal and is not a leak. Do not remove the water heater. Due to the normal corrosive action of the water, the tank will have a limited period of time. Also any external plumbing failure of the water tank will void the warranty.
